## Scherer Raps Killian As Head Of C.I.A. Probe

Cincinnati, June 10 (UPI)—American patriots were shocked when President Kennedy appointed Dr. James R. Killian to head an investigation of the Central Intelligence Agency, Representative Gordon H. Scherer (R., Ohio) said here Saturday.

Scherer told a Daughters of the American Revolution Flag Day luncheon that Killian once moderated a convention which passed resolutions to abolish the House Un-American Activities Committee and the Senate internal-security subcommittee.

Former President Dwight D. Eisenhower appointed Killian, president of Massachusetts Institute of Technology, his scientific adviser in 1957 after Russia launched its first sputnik. He held the position until 1959.
